FEED HUNGRY KIDS

10,000 PANTRY PACK CHALLENGE

America First Credit Union, America First Charitable Foundation, Young Caring for Our Young, and the Young Automotive Group are teaming up to feed 10,000 hungry kids!

Did you know one in six kids are food insecure? This means they might not have something to eat on weekends when school lunch and breakfast aren't available. That's why from July 27th-29th, America First Credit Union and 27 Young Automotive Group locations in Utah are assembling 10,000 pantry packs. These packs are meals used by schools and food services to sustain youngsters over the weekend. Each costs an average of \$5, which means you can feed a child for less than you'd spend on a movie ticket.
